

ACTAZIN[®]

NATURAL DIGESTIVE SUPPORT FROM GREEN KIWIFRUIT

NATURAL
WHOLE FRUIT
POWDER OR
PURÉE

SUITABLE
FOR ALL

GREAT
TASTE

LOW DOSE OF
600 MG

Actazin[®] is a clinically proven, natural ingredient derived from New Zealand green kiwifruit (*Actinidia deliciosa*). It supports digestive health by promoting bowel regularity, improving digestive comfort, and regulating gut microbiome balance across different life stages. **Actazin[®]** retains the full nutritional benefits of the whole fruit, including fibre, polyphenols, and the kiwifruitunique enzyme actinidin.

HEALTH OUTCOMES:

IMPROVES BOWEL REGULARITY

Actazin increases complete spontaneous bowel movements (CSBM) by up to 145% in individuals with occasional constipation, enhancing stool frequency and consistency.

ENHANCES STOOL FORM

Clinically shown to improve stool form, moving it towards normality on the Bristol Stool Form Scale (BSFS), improving overall bowel habits.

PROMOTES GUT MICROBIOME BALANCE

Encourages the growth of beneficial bacteria like *Akkermansia muciniphila*, contributing to gut health and barrier function.

GENTLE AND FODMAP-FRIENDLY

Provides natural digestive support without causing bloating or discomfort, making it suitable for sensitive individuals.

SCIENTIFIC VALIDATION:

4
IN VITRO
STUDIES

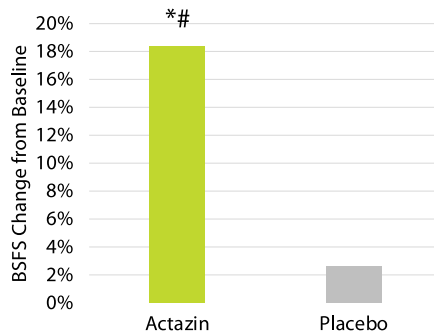

Demonstrate synbiotic benefits.

2
CLINICAL
TRIALS

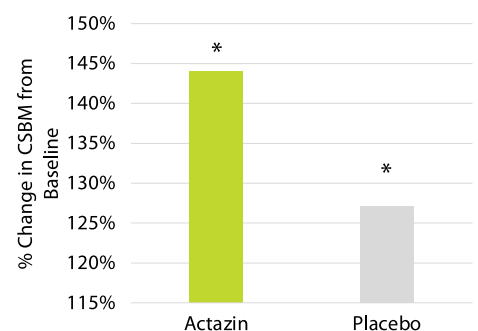

Published clinical studies show significant improvements in bowel regularity (CSBM), stool form and other GI symptoms.

Actazin[®] Improves Stool Form by up to 18%

Least square means for a repeated measures analysis of BSS (difference from baseline) for Actazin and placebo.

Actazin[®] Increases CSBM by nearly 145%

* P < 0.05 vs baseline
p < 0.05 vs Placebo

REAL SCIENCE. REAL PEOPLE. REAL RESULTS.

PROUDLY BROUGHT
TO YOU BY

WHAT MAKES ACTAZIN[®] UNIQUE?

CLINICAL OUTCOMES:

- Increases complete spontaneous bowel movements (CSBM) by up to 145% with a daily dose of 600 mg.
- Improves stool consistency (Bristol Stool Score) and reduces constipation symptoms.

UNIQUE FEATURES:

- Stimulates mucin production to support gut barrier function and feed beneficial bacteria like *Akkermansia muciniphila*.
- Gentler than many conventional constipation treatments, Actazin is well tolerated and not associated with common side effects such as diarrhoea, abdominal discomfort, bloating, or cramping.

NUTRITIONAL HIGHLIGHTS:

- Rich in dietary fibre, polyphenols, and vitamins.
- Whole-fruit ingredient with gel-forming properties that deliver benefits directly to the colon.

KEY POSITIONING:

DIGESTIVE HEALTH PRODUCTS

For individuals seeking relief from constipation or improved bowel function during different life stages.

WHY CHOOSE ACTAZIN[®]?

Actazin[®] offers a scientifically validated solution for digestive health that is gentle yet effective delivering the benefits of a much-loved fruit with a long history of human consumption in an accessible form.

Backed by science:

Supported by robust clinical research, full compositional analysis available.

Sustainable, quality source:

Made from whole green kiwifruit sourced from Zespri-accredited orchards.

Safe for all:

Suitable for children, pregnant women, and the elderly.

High consumer appeal:

Great-tasting with a natural fruit profile.

Formulation versatility:

Suitable for chewables, capsules, sachets, and functional foods.

Clean label:

Non-GMO, no added sugars or flavours, GRAS-certified.

Marketing, Formulation, and Market Acceptance Testing support available.
